

YOHAPRIYA VAIRAPERUMAL

Technical Lead | Senior .NET Engineer | 13+ Years

✉ yohapriya93@gmail.com | ☎ +91 8883525626

EXECUTIVE PROFILE

Technical Lead with 13+ years of experience designing and delivering enterprise-grade Microsoft solutions across Financial Services, Energy, Aviation, Healthcare and HRMS domains. Expertise in ASP.NET Core, C#, .NET, Web APIs, SQL Server, Azure DevOps, CI/CD and Microservices. Proven track record of leading Agile teams, improving application performance, mentoring engineers, integrating AI solutions including Python-based sentiment analysis, and delivering business-critical production releases.

CAREER HIGHLIGHTS

- Best Employee of the Quarter for delivery excellence.
- Led a **team of 5 software engineers** across multiple enterprise applications.
- Successfully led 50+ production releases over the last three years with minimal production issues.
- Designed and implemented secure REST APIs across multiple enterprise applications.
- Improved **SQL query performance** and reduced API response times through optimization.
- Integrated **Python-based Sentiment Analysis** with a .NET application to automate employee feedback analysis.
- Automated manual development activities to improve engineering productivity.
- Conducted architecture reviews, code reviews, sprint planning, effort estimation, and stakeholder communication.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core, .NET, ASP.NET MVC, Web API, REST APIs, Entity Framework Core, Microservices

Security: JWT Authentication, OAuth

Cloud: Azure App Services, Azure Functions, Application Insights

DevOps: Azure DevOps, CI/CD Pipelines, GitHub Actions, Docker, SonarQube

Database: SQL Server, Stored Procedures, Performance Tuning, Query Optimization

Testing: xUnit, NUnit

Frontend: Angular, JavaScript, HTML5, CSS3, Bootstrap

Practices: SOLID, Design Patterns, Agile Scrum, Code Reviews

AI & Productivity: GitHub Copilot | Claude AI | AI-assisted Development | AI-assisted Code Generation | AI-assisted Refactoring | Python

Professional Certifications: Microsoft Career Essentials in Generative AI | Career Essentials in GitHub Copilot | Career Essentials in Software Development

PROFESSIONAL EXPERIENCE

Advisorlabs Pvt Ltd | Team Lead | Apr 2022 – Aug 2026 (LWD: 31 Aug 2026)

Hexaware Technologies | Technical Lead | Apr 2021 – Apr 2022

Aspire Systems | Module Lead | Jun 2016 – Apr 2021

Vittena Analytics | Software Developer | Jan 2014 – Feb 2015

Visa Infotec | Software Developer | Jun 2012 – Jul 2013

KEY PROJECTS

AdvisorLabs Pvt Ltd:

Teybridge Capital - Technical Lead

Domain: Financial Services / Investment Management

Technologies: ASP.NET Core, ASP.NET MVC, Web API, SQL Server, Azure DevOps, Entity Framework Core

Description:

- Led the design and development of a cloud-based investment management platform.
- Developed secure REST APIs for fund administration and portfolio management.
- Implemented business workflows supporting investment operations and financial reporting.
- Optimized SQL queries and backend services to improve system performance.
- Collaborated with cross-functional teams to deliver business-critical enhancements.
- Supported production deployments and ongoing application maintenance.

AMPYR - Technical Lead

Domain: Energy Management / Renewable Energy

Technologies: ASP.NET Core, C#, Web API, Entity Framework Core, SQL Server, Azure DevOps, SonarQube, xUnit, NUnit

Description:

- Single-handedly managed the complete project lifecycle from requirement analysis to production support.
- Designed the application architecture and developed scalable REST APIs using ASP.NET Core.
- Optimized SQL Server queries, improving application performance and API response times. Maintained code quality using SonarQube.
- Collaborated directly with business stakeholders and clients to gather requirements and deliver successful releases.
- Successfully managed production deployments and resolved critical production issues.

Accelerated Payments - Technical Lead

Domain: Financial Services / Payment Processing

Technologies: ASP.NET Core, Web API, SQL Server, Entity Framework Core, Azure DevOps

Description:

- Developed secure payment processing APIs supporting invoice financing and receivables management. Designed backend services for payment workflows and transaction processing.
- Improved API response time through SQL optimization and application performance tuning. Implemented secure authentication using JWT and OAuth.
- Participated in sprint planning, code reviews, release management, and production support.

Age Care Technologies - Technical Lead

Domain: Healthcare

Technologies: ASP.NET Core, ASP.NET MVC, Web API, SQL Server, Azure DevOps

Description:

- Designed and developed healthcare management modules for resident care and compliance.
- Built REST APIs supporting care planning and operational workflows.
- Optimized SQL Server queries to improve application performance.
- Worked closely with business analysts and QA teams to deliver high-quality releases. Managed production deployments and resolved critical production issues.

Hexaware Technologies:

IndiGo - Technical Lead

Domain: Aviation

Technologies: .NET Core, ASP.NET Core, Web API, Angular, SQL Server, Azure DevOps

Description:

- Developed and enhanced enterprise airline applications supporting business operations. Designed and implemented scalable REST APIs using ASP.NET Core.
- Collaborated directly with client stakeholders to understand business requirements.
- Supported production deployments, incident resolution, and application maintenance. Improved application performance through SQL query optimization and backend enhancements.

AspireSystems:

Synergita - Module Lead

Domain: Human Resource Management System (HRMS)

Technologies: ASP.NET MVC, Web API, SQL Server, Python, Django, JavaScript

Description:

- Owned the Employee Management and Performance Management modules of the HRMS product.
- Integrated a Python-based Sentiment Analysis module with the .NET application to analyse employee feedback and improve reporting insights.
- Optimized SQL Server queries, improving application performance. Mentored junior developers and conducted code reviews.
- Collaborated with product owners, QA teams, and business stakeholders throughout Agile development cycles.

EDUCATION

International Diploma in Software Development – Genetic Computer School, Singapore - (2016)

B.E. Computer Science – Chettinad College of Engineering and Technology - (2012)
